

Formulae — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

FORMULAE

1. Read the letter definitions first.
2. Substitute known values.
3. Brackets, then $\times$ and $\div$, then $+$ and $-$.
4. Backwards questions become equations — undo step by step.

Examples: $C = 3 + 2m$, $m = 5 \rightarrow £13$ · $P = 2 \times (l + w)$, 9 and 4 $\rightarrow 26$ cm.
