

Rounding Decimals — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

ROUNDING DECIMALS

1. Underline the rounding digit.
2. Look ONE place to the right.
3. 5 or more → round up; 4 or less → keep.
4. Drop everything after the rounding place (keep a .0 if asked for 1 d.p.).

Examples: $3.47 \rightarrow 3.5$ (1 d.p.) · $3.47 \rightarrow 3$ (whole) · $2.97 \rightarrow 3.0$ (1 d.p.)
