

# Adding Fractions (Same Denominator) — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

## ADDING FRACTIONS (SAME DENOMINATOR)

1. Check the denominators are the same.
2. Add the numerators.
3. Keep the denominator the same.

**Example:**  $\frac{2}{8} + \frac{3}{8} = \frac{5}{8}$

Add the top numbers. Keep the bottom number.
