

Multiplying Fractions — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

MULTIPLYING FRACTIONS

1. Multiply the numerators.
2. Multiply the denominators.
3. Write the answer.
4. Simplify if you can.

Example: $\frac{2}{3} \times \frac{3}{4} = \frac{6}{12} = \frac{1}{2}$
