

Quadrilaterals — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

QUADRILATERALS

1. Square: 4 equal sides + 4 right angles.
2. Rectangle: opposite sides equal + 4 right angles.
3. Parallelogram: 2 pairs parallel. Rhombus: parallelogram with 4 equal sides.
4. Trapezium: exactly 1 pair parallel. All quadrilaterals: angles total 360° .

Example: 4 equal sides, no right angles → rhombus.
