

Converting Length — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

CONVERTING LENGTH

1. mm↔cm: 10 · cm↔m: 100 · m↔km: 1000
2. To a smaller unit → multiply.
3. To a bigger unit → divide.
4. Convert everything to the same unit before adding.

Examples: 3.45 m = 345 cm · 2.6 km = 2600 m · 750 m = 0.75 km
