

Reading Scales — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

READING SCALES

1. Find two labelled numbers.
2. Count the GAPS between them.
3. Gap value = difference $\div$ gaps.
4. Count on from a label to the pointer.

Example: 0–500 g with 10 gaps $\rightarrow$ 50 g per mark $\rightarrow$ 7th mark = 350 g
