

# Time Calculations — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

## TIME CALCULATIONS

1. Bridge: to the next o'clock → whole hours → final minutes.
2. Add the jumps.
3. Never column-subtract clock times.
4. 1.5 hours = 1 h 30 min (not 1 h 50).

---

**Example:** 09:35 → 11:10 = 25 + 60 + 10 = 1 h 35 min
