

Direct Proportion — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

DIRECT PROPORTION

1. Find the multiplier between the two amounts.
2. Apply the SAME multiplier to the other quantity.
3. Awkward numbers: find the value of 1 first.
4. Sense-check the size of the answer.

Examples: 3→6 pencils: 60p→120p · 4 tickets £18 → 10 tickets £45.
