

Nets and Cubes — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

NETS AND CUBES

1. Net neighbours = cube neighbours, never opposites.
2. Straight strip of three: the ends are opposite.
3. Cross net: A/E, C/D, B/F opposite pairs.
4. Fold from a fixed base, one square at a time.

Kill rule: options putting net-neighbours opposite are impossible.
