

Odd One Out (Figures) — Cheat Sheet

11+ Maths Guide · Year 5-6 · Keep this by your desk

ODD ONE OUT (FIGURES)

1. Scan each of the 5 dials across all figures.
2. Ignore dials that vary everywhere — they're decoys.
3. State the majority rule in words.
4. Exactly one figure must break it.

Example: shapes vary (decoy); 'all have a dot' → the dotless square is odd.
